Independent Auditors' Report

Mayor and City Council Enterprise City Hall Enterprise, Kansas 67441

We have audited the accompanying fund summary statement of regulatory basis receipts, expenditures, and unencumbered cash balances of the City of Enterprise, Kansas as of and for the year ended December 31, 2014 and the related notes to the financial statement.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of this financial statement in accordance with the Kansas Municipal Audit and Accounting Guide as described in Note 1 to meet the financial reporting requirements of the State of Kansas. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statement that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the Kansas Municipal Audit and Accounting Guide. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on the U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statement, the City of Enterprise, Kansas prepared this financial statement to meet the requirements of the State of Kansas on the basis of the financial reporting provisions of the Kansas Municipal Audit and Accounting Guide, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statement of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on the U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on the U.S. Generally Accepted Accounting Principles" paragraph, the financial statement referred to above does not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the City of Enterprise, Kansas, as of December 31, 2014, or the changes in its financial position or cash flows for the year then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statement referred to above presents fairly, in all material respects, the aggregate cash and unencumbered cash balance of the City of Enterprise, Kansas, as of December 31, 2014, and the aggregate receipts and expenditures for the year then ended in accordance with the financial reporting provisions of the Kansas Municipal Audit and Accounting Guide described in Note 1.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the fund summary statement of regulatory basis receipts, expenditures, and unencumbered cash balances (basic financial statement) as a whole. The summary of regulatory basis expenditures-actual and budget, individual fund schedules of regulatory basis receipts and expenditures-actual and budget, and the schedule of regulatory basis receipts and expenditures-related municipal entity-recreation commission (Schedules 1, 2, and 3 as listed in the table of contents) are presented for analysis and are not a required part of the basic financial statement, but are required to be presented under the provisions of the Kansas Municipal Audit and Accounting Guide. All supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2013 and 2014 basic financial statement. The 2014 information has been subjected to the auditing procedures applied in the audit of the 2014 basic financial statement and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statement or to the basic financial statement itself, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2014 information is fairly stated in all material respects in relation to the basic financial statement as a whole, on the basis of accounting described in Note 1.

NOTES TO THE FINANCIAL STATEMENT December 31, 2014

Note A - Summary of Significant Accounting Policies

The City has established a uniform system of accounting maintained to reflect compliance with the applicable laws of the State of Kansas. The more significant of the city's accounting policies are described below.

Municipal Financial Reporting Entity

The City of Enterprise is a governmental entity and operates under a Mayor-Council form of Government. The City operates as a third class city. The City provides the following services: public safety (police and fire), streets, sanitation, water, sewer, electric service, recreation, public improvements, planning and zoning, and general administrative services.

This regulatory basis financial statement presents the City of Enterprise and the City of Enterprise Recreation Commission, a related municipal entity. The City of Enterprise Recreation Commission oversees recreation activities. The recreation commission operates as a separate governing body but the City levies the taxes for the recreation commission and the recreation commission has only the powers granted by statute, K.S.A. 12-1928.

Regulatory Basis Fund Types

The accounts of the City are organized and operated on the basis of funds, which are used to record the City's financial transactions. A fund is defined as an independent fiscal and accounting entity with a self-balancing set of accounts. Cash and other financial resources are recorded together with all related expenditures. A fund is used to segregate specific activities and for the purpose of attaining certain objectives in accordance with special regulations, restrictions, or limitations including State Statutes and City Ordinances. The following types of funds comprise the financial activities of the City.

General Fund – The General Fund is the chief operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Purpose Funds – Special Purpose Funds are used to account for the proceeds of specific tax levies and other specific revenue sources (other than capital projects and tax levies for long-term debt) that are intended for specified purposes.

Bond and Interest Fund – Bond and Interest Funds are used to account for the accumulation of resources, including tax levies, transfers from other funds and payment of general long-term debt.

Capital Project Fund – Capital Project Funds are used to account for the debt proceeds and other financial resources to be used for acquisition or construction of major capital facilities or equipment.

Business Funds – Business Funds are financed in whole or in part by fees charged to users of the goods or services. Funds are operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of receipts, expenses, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Trust Funds: Trust Funds are used to report assets held in trust for the benefit of the municipal financial reporting entity.

NOTES TO THE FINANCIAL STATEMENT December 31, 2014

Note A – Summary of Significant Accounting Policies (Cont)

Regulatory Basis of Accounting and Departure from Accounting Principles Generally Accepted in the United States of America The Kansas Municipal Audit and Accounting Guide (KMAAG) regulatory basis of accounting involves the recognition of cash, cash equivalents, marketable investments, and certain accounts payable and encumbrance obligations to arrive at a net unencumbered cash and investments balance on a regulatory basis for each fund, and the reporting of changes in unencumbered cash and investments of a fund resulting from the difference in regulatory basis receipts and regulatory basis expenditures for the fiscal year. All recognized assets and liabilities are measured and reported at cost, unless they have been permanently impaired and have no future cash value or represent no future obligation against cash. The KMAAG regulatory basis does not recognize capital assets, long-term debt, accrued receivables and payables or any other assets, liabilities or deferred inflows or outflows, other than those mentioned above.

The City approved a resolution that is in compliance with K.S.A. 75-1120a(c), waiving the requirement for application of generally accepted accounting principles and allowing the City to use the regulatory basis of accounting.

Note B - Stewardship, Compliance and Accountability

Budgetary Information

Kansas's statutes require that an annual operating budget be legally adopted for the general fund, special purpose funds (unless specifically exempted by statute), bond and interest funds, and business funds. Although directory rather than mandatory, the statutes provide for the following sequence and timetable in the adoption of the legal annual operating budget:

- 1. Preparation of the budget for the succeeding calendar year on or before August 1st.
- 2. Publication in local newspaper of the proposed budget and notice of public hearing on the budget on or before August
- 3. Public hearing on or before August 15th, but at least ten days after publication of notice of hearing.
- 4. Adoption of the final budget on or before August 25th.

The statutes allow for the governing body to increase the originally adopted budget for previously unbudgeted increases in regulatory receipts other than ad valorem property taxes. To do this, a notice of public hearing to amend the budget must be published in the local newspaper. At least ten days after publication, the hearing may be held, and the governing body may amend the budget at that time. There were no such amendments this year.

The statutes permit transferring budgeted amounts between line items within an individual fund. However, such statutes prohibit expenditures in excess of the total amount of the adopted budget of expenditures of individual funds. Budget comparison statements are presented for each fund showing actual receipts and expenditures compared to legally budgeted receipts and expenditures.

All legal annual operating budgets are prepared using the regulatory basis of accounting, in which, regulatory receipts are recognized when cash is received and expenditures include disbursements, accounts payable, and encumbrances, with disbursements being adjusted for prior year's accounts payable and encumbrances. Encumbrances are commitments by the municipality for future payments and are supported by a document evidencing the commitment, such as a purchase order or contract. Any unused budgeted expenditure authority lapses at year-end.

A legal operating budget is not required for capital projects and trust funds. Spending in funds that are not subject to the legal annual operating budget requirement are controlled by federal regulations, other statutes, or by the use of internal spending limits established by the governing body.

NOTES TO THE FINANCIAL STATEMENT December 31, 2014

Note B – Stewardship, Compliance and Accountability (Cont)

Compliance with Finance-Related Legal and Contractual Provisions

References made herein to the statutes are not intended as interpretations of law, but are offered for consideration of the Director of Accounts and Reports and interpretation by the County Attorney and legal representatives of the municipality.

Financial Statement Publication K.S.A. 12-1608

The City of Enterprise did not publish a financial statement for the calendar year ending December 31, 2014.

K.S.A. 10-1113 requires that no expenditures be made from a fund in excess of monies in that fund. The capital project fund carries a negative balance due to project encumbrances which is not a statute violation.

Management is not aware of any other items of noncompliance with Kansas statutes.

Note C – Cash and Deposits

K.S.A. 9-1401 establishes the depositories which may be used by the Government. The statute requires banks eligible to hold the Government's funds have a main or branch bank in the county in which the Government is located, or in an adjoining county if such institution has been designated as an official depository, and the banks provide an acceptable rate of return on funds. In addition, K.S.A. 9-1402 requires the banks to pledge securities for deposits in excess of FDIC coverage. The City has no other policies that would further limit interest rate risk.

K.S.A.12-1675 limits the Government's investment of idle funds to time deposits, open accounts, and certificates of deposit with allowable financial institutions; U. S. government securities; temporary notes; no-fund warrants; repurchase agreements; and the Kansas Municipal Investment Pool. The City has no investment policy that would further limit its investment choices.

State statutes place no limit on the amount the Government may invest in any one issuer as long as the investments are adequately secured under K.S.A. 9-1402 and 9-1405.

Custodial credit risk is the risk that in the event of a bank failure, the Government's deposits may not be returned to it. State statutes require the Government's deposits in financial institutions to be entirely covered by federal depository insurance or by collateral held under a joint custody receipts issued by a bank within the State of Kansas, the Federal Reserve Bank of Kansas City, or the Federal Home Loan Bank of Topeka, except during designated "peak periods" when required coverage is 50%. The City does not designate peak periods. The City's deposits were legally secured at December 31, 2014.

The City maintains a cash pool that is available for use by all funds. At year-end the carrying amount of the city's deposits, including certificates of deposit, was \$526,575. The bank balance was \$569,163. The difference between the carrying amount and the bank balance is outstanding checks and deposits in transit. Of the bank balance, \$260,633 was covered by FDIC insurance and \$308,530 was collateralized by pledged securities held under joint custody receipts issued by a third-party bank in the city's name.

Note D – Property Taxes

The determination of assessed valuations and the collection of property taxes for all political subdivisions in the State of Kansas is the responsibility of the various counties. The County Appraiser annually determines assessed valuations based on real estate transactions recorded by the Register of Deeds and personal property transactions reported by taxpayers. The County Clerk spreads the annual assessment on the tax rolls. The County Treasurer is the tax collection agent for all taxing entities

NOTES TO THE FINANCIAL STATEMENT December 31, 2014

Note D - Property Taxes (Cont)

within the County. In accordance with state statutes, property taxes levied during the current year are a revenue source to be used to finance the budget of the ensuing year. Taxes are assessed on a calendar year basis and become a lien on the property on November 1 of each year. One-half of the property tax is due December 20th prior to the fiscal year for which they are budgeted, and the second half is due the following May 10th. The county treasurer collects and distributes the property taxes. In accordance with state statutes, property taxes levied during the current year are a revenue source to be used to finance the following year's operation.

Note E – Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omission; injuries to employees; and natural disasters. To insure against risk of these types of losses, the City has purchased commercial insurance coverage. Settled claims resulting from these risks have not exceeded coverage in the past three calendar years.

Note F - Defined Benefit Pension Plan

<u>Plan Description</u> – The City of Enterprise, Kansas participates in the Kansas Public Employees Retirement System (KPERS), a cost-sharing multiple-employer defined benefit pension plan as provided by K.S.A. 74-4901, et seq. KPERS provides retirement benefits, life insurance, disability income benefits, and death benefits. Kansas law establishes and amends benefit provisions. KPERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to KPERS (611 S. Kansas, Suite 100, Topeka, KS 66603) or by calling 1-888-275-5737.

<u>Funding Policy</u> - K.S.A. 74-4419 and 74-49,210 establishes the KPERS member-employee contribution rates. Effective July 1, 2009, KPERS has two benefit structures and funding depends on whether the employee is a Tier 1 or Tier 2 member. Tier 1 members are active and contributing members hired before July 1, 2009. Tier 2 members were first employed in a covered position on or after July 1, 2009. Kansas law establishes member-employee contribution rate at 5% of covered salary for Tier 1 members and at 6% of covered salary for Tier 2 members. The employer collects and remits member-employee contributions according to the provisions of section 414(h) of the Internal Revenue Code. Kansas law provides that the employer contribution rate be determined annually based on the results of an annual actuarial valuation. KPERS is funded on an actuarial reserve basis. Kansas law sets a limitation on annual increases in the contribution rates for KPERS employers.

Note G – Other Long-Term Obligations From Operations

Compensated Absences

Full time employees earn four hours of sick leave for each full month of service. Sick leave may accumulate to 750 hours. Upon termination, an employee is not paid for any unused sick leave.

Compensated Absences (Cont)

Vacation for full time employees is based on years of employment. Full time employees receive one week after the first year of service, two weeks after two years of service, and three weeks after five years of continuous service. Vacation time may not be accumulated past the individuals' employment date anniversary unless approval is made by the City Council. City Council may also approve payment of unused vacation time. Upon termination, an employee shall be compensated for all earned but unused vacation leave at their final rate of pay, subject to the maximum hours of accumulation authorized.

NOTES TO THE FINANCIAL STATEMENT December 31, 2014

Note G - Other Long-Term Obligations From Operations (Cont)

Other Post-Employment Benefits

In accordance with state statutes, the city makes health care benefits available to eligible former employees and eligible dependents. Certain requirements are outlined by state statutes. The premium is paid in full by the insured directly to the insurance carrier. There is no cost to the city under this program.

Customer Deposits

The City requires a utility deposit for new customers. The City retains the deposit for one year and then is paid back to those in good standing upon request. The City does not recognize the customer deposit liability in its financial statement.

Note H – Water Project

The city was awarded a CDBG project grant for water system improvements in the amount of \$163,777 in 2013. The grant requires a local match of \$76,038. As of December 31, 2014, \$107,189 had been received from the State of Kansas. Expenditures as of December 31, 2014 totaled \$161,359, including \$56,500 of contract encumbrances.

Note I – Sewer Project

The city is exploring options for its wastewater facility. The Kansas Department of Health and Environment is requiring corrections to be made to ensure city compliance. Those corrections may include the construction of a new facility.

Note J – Long-Term Debt

General Obligation Bonds

The City issues general obligation bonds to finance the acquisition and construction of major capital facilities, both for general government and proprietary activities. General obligation bonds are direct obligations and pledge the full faith and credit of the issuing entity. In 2003, the city issued bonds for a street project. Payments are made from the bond and interest fund.

Layton Lane Special Assessment Project

The City issued general obligation bonds in the amount of \$119,446 in 2006 for street improvements to Layton Lane. Special assessments were authorized to be charged to the benefiting property owners for repayment of the bond. The special assessments authorized to be charged began to be assessed by Dickinson County, Kansas in November 2007 and began distributing those assessment to the City beginning in 2008. Repayment of the bonds began in 2007. Payments are made from the bond and interest fund.

Capital Leases

On January 27, 2014, the City entered into a capital lease agreement with the Astra Bank for the purchase of a 2006 Chevy 2500HD truck. The lease terminates due to non-appropriation of funds and the vehicle is returned to the lessor. Three annual payments of \$5,000 are due starting October 1, 2014 with a final payment of \$6,487 on October 1, 2017. Payments are made from the electric, water, and sewer funds.

On January 27, 2014, the City entered into a capital lease agreement with the Astra Bank for the purchase of a 2012 Dodge Charger. The lease terminates due to non-appropriation of funds and the vehicle is returned to the lessor. Three annual payments of \$5,000 are due starting March 15, 2014 with a final payment of \$4,864 on March 15, 2017. Payments are made from the special law fund.

NOTES TO THE FINANCIAL STATEMENT December 31, 2014

NOTE J - LONG TERM DEBT (CONT)

Changes in long term liabilities for the City for the year ended December 31, 2014 are as follows:
